ABOUT US

Model Makers, established in 2013 by Himanshu Choudhary, is a renowned modeling agency with a presence in Delhi, Mumbai, Chandigarh, and Kolkata. The agency focuses on helping and training newcomers in the industry, offering guidance and grooming to both male and female models, providing them with the skills and opportunities to build a successful career in fashion and entertainment. Model Makers has gained a strong reputation for working with top Indian celebrities such as Rannvijay Singha, Karan Kundrra, Prince Narula, Parth Samthaan, and many more. With over 100 completed shoots and having worked with more than 7,000 models to date, the agency has become a trusted name in the modeling circuit.

Model Makers also stands out for its inclusivity, offering opportunities to kid models, plus-size models, and casting individuals of all colors and languages from across India, ensuring diverse representation in the industry. In addition to portfolio development, the agency offers grooming and training classes that help models grow into experienced professionals. The agency actively casts for movies, TV serials, web series, and advertisements, opening multiple avenues for its models. In 2020, Model Makers launched a new venture called Fashion Parade, expanding its reach in the fashion industry. The agency's commitment to talent development has led many ex-participants to find success in modeling and acting.

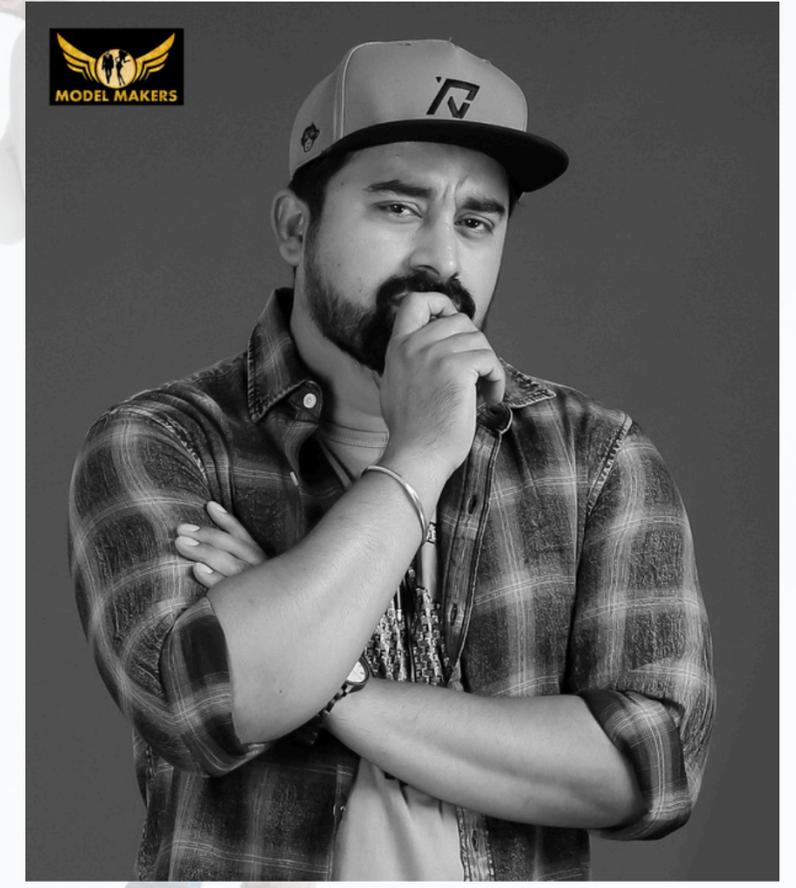

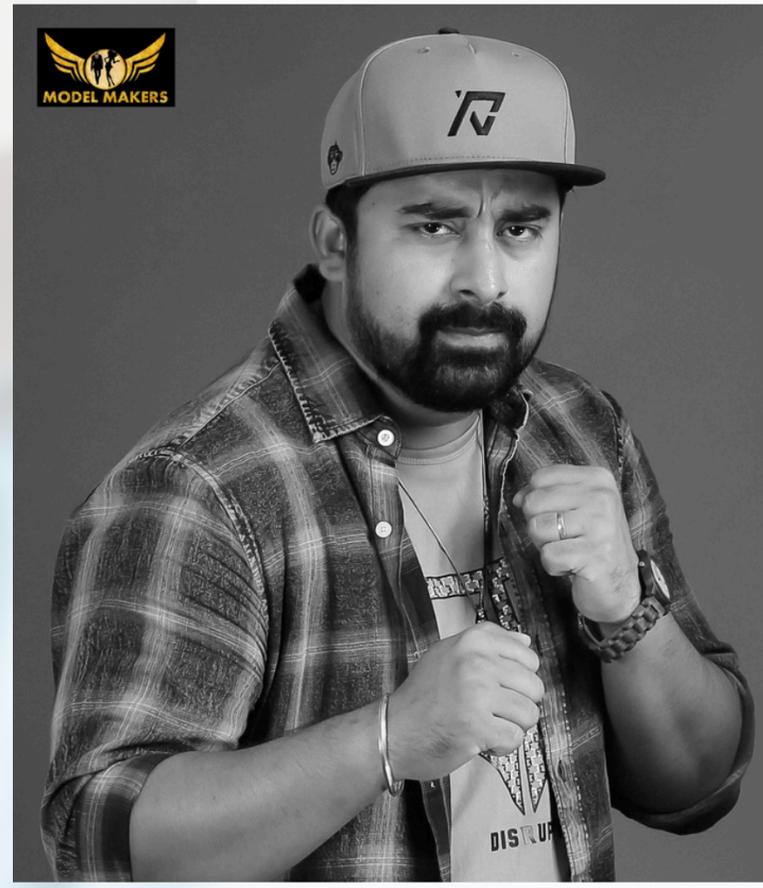

With a dedicated model bank, Model Makers serves as a one-stop platform for aspiring models to break into the industry, providing them with exposure to print, ramp shows, and TV commercials, among other high-profile projects. Their comprehensive approach to nurturing talent continues to make them a valuable resource for models seeking long-term success.

HOW WE SHAPE TALENT

At our agency, we evaluate aspiring models based on their looks, height, and body proportions. Once selected, they undergo our Model Grooming and Training Program, covering runway walking, posing, and body posture through both practical sessions and theoretical lessons. After training, we create a high-quality professional portfolio and guide them in finding work, ensuring they are well-prepared and confident to succeed in the modeling industry.
